Test usage of the Breathing Air Activation System Basic Line 1001
Your letter of 9.7.98
Your reference: gi/Al

Dear Sir/Madam,

We wish to inform you that we have used the above machine for several individual cases. We noted that when the machine was used in these individual cases in conjunction with medicinal drugs, surgical measures and locally applied external medications, there was an improvement in the decubital ulcers treated. These separate cases were also documented in the medical records.

Yours sincerely

K. Mertens
Medical Director
